

Uniting over 50 locally-led and globally-informed networks of churches, NGO and agencies to see every child in a loving family, embraced within a collaborative community.

We offer Christian leaders a global community to become *Better Together* spiritually, professionally and relationally as they unite local leaders to better care for vulnerable children and families in their communities.

Acting as a global backbone organization, the CAFO Global Network unites national backbone networks around the world through a shared **Better Together** vision: *every child in a loving family, embraced within a collaborative community*. Affirmed by member networks, the *Better Together* vision focuses a global movement by providing common goals and shared measurements to achieve collective impact for vulnerable children and families in their own communities.

SHARED VISION

Members of the CAFO Global Network unite around a common global vision with shared goals:

*Every child in a loving family,
embraced within a collaborative community*

SHARED GOALS

To mobilize churches, organizations, and advocates by:

1. **Collaborating to enable family and community-based care**
Create collaborative communities through local networks that support vibrant, family-centered and community-based care for all children
2. **Partnering with churches to inspire and support Christians in action**
Equip and empower local churches to catalyze Christians toward ongoing care for vulnerable children and families
3. **Cultivating competency with evidence-based approaches and best practices**
Strengthen leaders, programs and ministries within the network through world-class training and resources so that we accomplish more for vulnerable children and families collectively than any could alone.

Collaborative Community

The local local church welcomes and supports vulnerable children and families (biological, kinship, foster and adoptive) within a faith community offering love, prayer, friendship and practical assistance. For needs beyond the capabilities of the local church, the family connects to a broader set of resources and services provided through a local network of government agencies, faith-based and secular NGOs, independent advocates, local ministries from other churches, as well as local cultural communities.

In reaching this vision, churches and organizations will come together to:

- Recruit foster, adoptive and kinship families and support them as they grow into effective, stable and loving families for vulnerable children.
- Build wrap-around support teams for biological, kinship, foster, and adoptive families.
- Support practitioners and volunteers, providing encouragement and practical support as they serve children and families.
